

## WHAT'S **IN IT** **FOR ME?**

# GOJEP 2.0: THE FUTURE OF PUBLIC PROCUREMENT

Doing business with the Government of Jamaica has become more transparent, efficient and accessible through the enhanced Government of Jamaica Electronic Procurement (GOJEP) portal. **GOJEP 2.0 now has a comprehensive suite of new features designed to make procurement easier for suppliers and procuring entities while strengthening oversight.**

With the new GOJEP portal, **suppliers are no longer required to install the Java software for electronic bid submissions**, which makes the process more efficient and seamless.

The platform also boasts a **modern, user-friendly interface, expanded procurement workflow and tracking** and a **seamless integration with the Public Procurement Commission**.

Additionally, GOJEP 2.0 now captures significantly richer procurement information throughout the procurement lifecycle, improving procurement planning, strengthening compliance monitoring and reducing duplication of efforts across ministries, departments and agencies.

### WHAT YOU SHOULD REMEMBER:

- With GOJEP 2.0, suppliers are no longer required to install the Java software for electronic bid submissions.
- Suppliers and procuring entities can now benefit from improved visibility and tracking of evaluation and approval processes.

### WHAT'S IN IT FOR ME?

GOJEP 2.0 makes procurement faster, simpler and more transparent, with easier bidding, better tracking and greater opportunities to do business with the Government of Jamaica.
