

WHAT'S IN IT FOR ME?

In a constantly changing global environment that is dominated by advancements in technology, the world of work must evolve to meet the growing demands of the digital age. The Ministry of Finance and the Public Service (MOFPS), through the Transformation Implementation Unit (TIU) is equipping public sector workers with the skills to thrive in a digital era through its **Reskilling, Upskilling and New-skilling (RUN) Project**.

The RUN project allows eligible employees within the Government of Jamaica (GOJ) to **choose from over 7,000 self-paced online courses ranging from 30 minutes to several weeks in length**. This project is aligned with the public sector transformation vision which is geared at creating a modern public service that is fair, values people and consistently delivers high-quality services.

Reskilling is for GOJ employees who would like to acquire a skill in areas such as business administration, make-up artistry or to improve their soft skills, upskilling targets employees who wish to acquire additional skills or new credentials to progress their career. Finally, New-skilling is geared towards employees who wish to access refined training in specific areas that will elevate their service delivery.

WHAT YOU SHOULD REMEMBER?

01. You must be a GOJ employee to benefit from the RUN Project
02. GOJ employees can choose from over 7,000 self-paced online courses
03. Online courses under the RUN Project range from 30 minutes to several weeks in length
04. Interested GOJ employees can register and get more information at publicsectortransformation.gov.jm.

WHAT'S IN IT FOR ME?

With access to thousands of self-paced courses, you can gain new qualifications or enhance existing skills that position you for promotions, new roles, or professional recognition within the public service.

The Ministry of Finance and the Public Service prides itself on fostering a motivated workforce that is empowered to deliver excellent service across its divisions, departments and agencies.
