

WHAT'S IN IT FOR ME?

EVIDENCE-BASED POLICIES AND PROGRAMMES

The Ministry of Finance and the Public Service (MOFPS) prides itself on effectively and efficiently delivering on its policy directives, which are influenced by **data-driven decision-making**. This means the MOFPS is a centre of excellence that is driven by research that aids in the implementation of current and relevant policies and initiatives geared toward benefiting all Jamaicans.

Evidence-Based Policies and Programmes will ensure that thorough risk management can be achieved to limit and control threats that may have national implications.

WHAT YOU SHOULD REMEMBER:

- ▶ Centres of Excellence are driven by research, with data being the currency.
- ▶ Evidence-based policies will ensure currency and relevancy in the decision-making process.
- ▶ Expert-level risk management is achieved through data-driven decision-making.
- ▶ Evidence-based policies and initiatives will ensure all Jamaicans benefit from the Government's plans and projections.

- ▶ This is the final of the five (5) tenets of the **Driven by Service Excellence** strategic road map.

WHAT'S IN IT FOR ME?

You can expect to benefit from current and relevant data-driven policy decisions, regardless of social and economic status.

The Government of Jamaica is committed to achieving Vision 2030 Jamaica by being intentional and strategic in its long-term plan to make Jamaica the place of choice to live, work, raise families and do business.
