CPI Point-to-Point, August 2023

The All Jamaica Consumer Price Index for August 2023, increased by 6.8 per cent when compared to August 2022. The divisions **‘Food and Non-Alcoholic Beverages’** (10.9%), **‘Restaurants and Accommodation Services’** (12.0%) and **‘Furnishings, Household Equipment and Routine Household Maintenance’** (11.1%), were the largest contributors to this increase. Tempering these increases, however, was a fall of 1.2 per cent in the index for the **‘Transport’** division.

All classes within the **‘Food and Non-Alcoholic Beverages’** division increased for the review period. The key contributor was the class ‘Vegetables, tubers, plantains, cooking bananas and pulses’, which rose by 30.2 per cent. Continued drought conditions led to higher prices for yam, sweet potato, Irish potato, tomato, carrot and cabbage. The index for the class, ‘Cereals and cereal products’ increased by 5.1 per cent, due to higher prices for bread, flour and rice. Increased prices for other meat products such as chicken, turkey neck, corned beef and other meat products, contributed to the 4.1 per cent rise in the index for ‘Meat and Other parts of slaughtered land animals’.

The increase in the index of the **‘Restaurants and Accommodation Services’** division was attributable to higher prices for ‘Food and Beverage Serving Services’ (12.1%). The index for the division **‘Furnishings, Household Equipment and Routine Household Maintenance’** was largely impacted by the upward movement in the group ‘Goods and Services for Routine Household Maintenance’ (13.6%). This was a result of an increase in the National Minimum Wage for Jamaica on June 1, 2023.

Moderating these increases was a fall in the index for the **‘Transport’** division. This was mainly due to lower prices for petrol products over the point-to-point period. The class ‘Fuel & lubricants for personal transport equipment’ declined by 10.2 per cent for this review period.
