JUNE 2021

The All Jamaica Consumer Price Index was 109.8 for June 2021, indicating an inflation rate of 0.7 per cent. This movement was largely attributable to the 1.9 per cent increase in the index for the heavily weighted 'Food and Non-Alcoholic Beverages' division. The index for the class 'Vegetables, tubers, plantains, cooking bananas and pulses' rose by 4.0 per cent as prices continued to increase for some agricultural produce such as yams, potato, lettuce and cabbage. Higher prices for items within the class 'Restaurant, cafes and the like' resulted in a 5.9 per cent increase in the division 'Restaurant and Accommodation Services'. Also contributing to the overall inflation rate was the 0.4 per cent increase in the index for the 'Transport' division due to increased petrol prices. However, these increases were tempered by the 2.4 per cent decline in the index for the 'Housing, Water, Electricity, Gas and Other Fuels' division, which resulted mainly from the fall in electricity, water and sewage rates.

The point-to-point inflation rate was 4.3 per cent, the fiscal year-to-date was 1.9 per cent and the calendar year-to-date rate was 2.4 per cent for June 2021.
