## NOVEMBER 2024

The All Jamaica Consumer Price Index (CPI) increased to 141.9 for November 2024, reflecting an inflation rate of 1.0 per cent. The main contributor was a 2.1 per cent rise in the index for the division **'Food and Non-Alcoholic Beverages'** influenced mainly by a 5.7 per cent increase in the index of the class *'Vegetables, tubers, plantains, cooking bananas and pulses'*. This resulted largely from higher prices for agricultural produce due to lower supply, following heavy rains from Tropical Storm Rafael. The inflation rate was also impacted by a 0.4 per cent increase in the index for the division **'Housing, Water, Electricity, Gas and Other Fuels'** primarily due to an increase in electricity rates. Additionally, there was a 1.1 per cent rise in the index for the **'Education'** division due to increased fees for Caribbean Secondary Education Certificate (CSEC) examinations.

The point-to-point inflation rate as at November 2024 was 4.3 per cent.

This was primarily attributable to increases in the index for the groups: *‘Imputed Rentals for Housing’* (6.2%) and *‘Maintenance, Repair and Security of the Dwelling’* (4.1%). These increases were influenced by higher household rent and paint prices.

The index of the **‘Restaurants and Accommodation Services’** division increased by 3.9 per cent. This increase was mainly impacted by higher prices for meals from fast food restaurants and cookshops.
