APRIL 2021

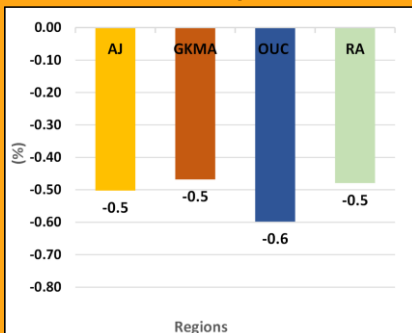

The All Jamaica Consumer Price Index decreased by 0.5 per cent in April 2021 as the index moved from 108.3 in the previous month to 107.7. This decline was as a result of the 4.0 per cent fall in the index for the heavily weighted 'Housing Water, Electricity, Gas and Other Fuels' division due to a decrease in electricity rates. In the reference period, electricity rates were impacted by lower fuel prices, as well as, a fall in the billing exchange rate. The overall movement of the CPI was however tempered by the 0.5 per cent increase in the index for 'Food and Non-Alcoholic Beverages' with increases recorded for all the classes within this division. The

classes with the strongest impact on the division's movement were 'Meat and other parts of slaughtered land animals' which went up by 0.8 per cent, 'Fruits and nuts' up by 0.9 per cent, 'Cereals and cereal products' and 'Fish and Seafood' each up by 0.6 per cent each. In addition, the 'Transport' division recorded a 0.3 per cent increase in its index due to higher prices for petrol.

The calendar year-to-date inflation rate was 0.4 per cent and the point-to-point 3.8 per cent as at April 2021.
