JANUARY 2021

The All-Jamaica Consumer Price Index (CPI) declined by 1.6 per cent for January 2021. This movement was mainly attributed to a fall of 4.6 per cent in the index for the heaviest weighted division, 'Food and Non-Alcoholic Beverages' and a 0.8 per cent decrease in the index for the 'Housing, Water, Electricity, Gas and Other Fuels' division. The decline in the CPI was however tempered by an increase of 0.7 per cent in the index for the division 'Transport'. The decrease in the 'Food and Non-Alcoholic Beverages' division was due primarily to the 17.8 per cent fall in the index of the class 'Vegetables, tubers, plantains, cooking bananas and pulses' as a result of lower prices for agricultural produce. Lower electricity rates contributed to the 3.1 per cent decline in the index for the group 'Electricity Gas and Other Fuels' which led to the decline in the index for the division 'Housing, Water, Electricity, Gas and Other Fuels'. This fall was however tempered by higher rates for water and sewage. The increase in the index for the 'Transport' division was influenced mainly by higher petrol prices.

For the review period, the point-to-point inflation rate was 4.7 per cent, while that for the fiscal year-to-date was 3.4 per cent.
