The two groups within this division, 'Food' and 'Non-Alcoholic Beverages', registered increases of 2.0 per cent and 0.6 per cent respectively. 'Food' was mainly impacted by higher prices for tomato, cabbage, onion and sweet pepper, resulting in the 5.3 per cent rise in the index for the class 'Vegetables, tubers, plantains, cooking bananas and pulses'. The inflation rate was also impacted by the 3.9 per cent rise in the index for the division 'Housing, Water, Electricity, Gas and Other Fuels' as the group 'Electricity, Gas and Other Fuels' increased by 9.6 per cent. This was due largely to higher rates for electricity. This upward movement was however tempered by the 1.0 per cent fall in the index for the group 'Water Supply and Miscellaneous Services to the Dwelling', due to a reduction in the rates for water and sewage. Also contributing to the over all inflation rate for the review period was the 0.6 per cent increase in the index for the 'Transport' division, mainly attributable to higher costs for fuels and lubricants.

For March 2022, the point-to-point inflation rate was 11.3 per cent and the 2021/2022 fiscal year inflation rate was 11.9 per cent.

# CPI Point-to-Point Analysis

## March 2022

The All Jamaica, All Items Consumer Price Index continued to trend upwards, increasing by 11.3 per cent when the index for March 2022 was compared to the index for March 2021. This increase was the largest point-to-point change since the implementation of the new CPI basket in April 2020. The main contributors to this upward movement were the divisions: 'Food and Non-Alcoholic Beverages' which increased by 14.7 per cent; 'Housing, Water, Electricity, Gas and Other Fuels' which moved up 9.6 per cent and 'Transport' (14.3%).

The increase in the index for the division 'Food and Non-Alcoholic Beverages' was mainly attributed to the 22.1 per cent increase in the index for the class 'Vegetables, tubers, plantains, cooking bananas and pulses'. Higher prices for items such as tomato, lettuce, and yam were the main contributors. Also impacting the division's movement was an increase of 18.3 per cent in the index for the class 'Meat and other parts of slaughtered land animals' due to higher prices for chicken and other meat products.

A 20.9 per cent increase in the index for the class 'Electricity, Gas and Other Fuels' had the largest impact on the division 'Housing, Water, Electricity, Gas and Other Fuels'. This increase resulted from higher rates for electricity. Higher prices for all petrol products and an increase in bus, route taxi, and hackney carriage fares in August 2021 resulted in the 14.3 percent increase in the 'Transport' division's index. This was reflected in the classes 'Fuel & lubricants for personal transport equipment' which rose by 28.7 per cent and 'Passenger transport by road' which moved up by 12.8 per cent.
